Important Note on Evidence

- Two defects below (BUG-01, BUG-02) were directly confirmed by inspecting the live page content of automationexercise.com and are reproducible by visiting the listed URLs.
 - Several additional test cases (cart quantity boundaries, form validation, login/signup behavior) require live, interactive execution in a browser to capture Actual Result and Screenshot evidence. These are marked 'Pending' in the Status column and should be
 - executed manually before submission, with a screenshot attached for each.
- This keeps the report honest: only genuinely verified issues are reported as bugs.

Bug Reports

automationexercise.com – Day 3 (verified + areas pending manual evidence)

Bug ID	Bug Title	Area	Steps to Reproduce	Expected Result	Actual Result	Severity	Priority	Evidence
BUG-01	Recommended Items carousel shows price instead of product name	Homepage	1. Go to https://automationexercise.com/ 2. Scroll to the 'recommended items' carousel 3. Check the label shown below the image for the product priced Rs.	Product name 'Sleeveless Dress' should appear below the image, as it correctly does in the 'Features Items' section above it	The label reads 'Rs. 1000' a second time instead of the product name; the name is missing entirely	Low	Low	Verified directly via page content inspection on 2026-08-04 — reproducible by visiting the homepage and scrolling to Recommended Items. Tester should attach a screenshot of this section
BUG-02	Website footer displays an outdated copyright year	Global / Footer	1. Open any page on the site (e.g. Home, Products, Cart, Contact Us) 2. Scroll to the footer	Footer should display the current year (2026) or a dynamic/rolling copyright notice	Footer displays 'Copyright © 2021 All rights reserved' on every page checked	Low	Low	Verified directly via page content inspection on 2026-08-04 across Home, Products, Product Details, Cart, Login and Contact Us pages. Tester should attach a footer screenshot when submitting.

Note: Only 2 genuine, verifiable bugs were confirmed without live browser interaction. Areas most likely to surface additional defects — quantity boundary handling (0 / negative / 9999), cart total recalculation, email-format validation on Signup/Contact Us, and duplicate-email signup — are listed as 'Pending' test cases in the Test Cases sheet and should be executed manually with screenshot evidence before final submission, adding any confirmed defects here as BUG-03 onward.
