

Positive & Negative Test Cases

DummyJSON Authentication API

Positive Test Cases

These test cases verify that the API functions correctly when valid input is provided.

Test Case ID	Module	API	Method	Test Description	Expected Result	Status
TC_001	Authentication	/auth/login	POST	Login with valid username and password	Login successful, accessToken and refreshToken returned	Pass
TC_011	Authorization	/auth/me	GET	Retrieve logged-in user details using a valid Bearer Token	User profile returned successfully	Pass
TC_013	Authentication	/auth/login	POST	Login with an extra JSON field	Login successful, extra field ignored	Pass
TC_030	Performance	/auth/login	POST	Verify response time	Status 200, response time below 1000 ms	Pass

Negative Test Cases

These test cases verify that the API handles invalid input securely and returns appropriate error messages.

Test Case ID	Module	API	Method	Test Description	Expected Result	Status
TC_002	Authentication	/auth/login	POST	Invalid password	Invalid credentials	Pass
TC_003	Authentication	/auth/login	POST	Invalid username	Invalid credentials	Pass
TC_004	Authentication	/auth/login	POST	Empty username	Validation error	Pass
TC_005	Authentication	/auth/login	POST	Empty password	Validation error	Pass
TC_006	Authentication	/auth/login	POST	Empty username and password	Validation error	Pass
TC_007	Authentication	/auth/login	POST	Missing username field	Validation error	Pass
TC_008	Authentication	/auth/login	POST	Missing password field	Validation error	Pass
TC_009	Authentication	/auth/login	POST	Invalid data type	Validation error	Pass
TC_010	Authentication	/auth/login	POST	Invalid username format	Invalid credentials	Pass
TC_012	Authorization	/auth/me	GET	Request without token	Unauthorized	Pass
TC_014	Authentication	/auth/login	POST	Username with leading/trailing spaces	Login rejected (or trimmed if API supports it)	Pass
TC_015	Authentication	/auth/login	POST	Password with leading/trailing spaces	Invalid credentials	Pass
TC_016	Security	/auth/login	POST	SQL Injection attempt	Login rejected	Pass
TC_017	Security	/auth/login	POST	XSS attempt	Login rejected	Pass
TC_018	Validation	/auth/login	POST	Very long username	Validation error	Pass
TC_019	Validation	/auth/login	POST	Very long password	Validation error	Pass
TC_020	Validation	/auth/login	POST	Username with special characters	Invalid credentials	Pass
TC_021	Validation	/auth/login	POST	Numeric username	Invalid credentials	Pass
TC_022	Validation	/auth/login	POST	Null values	Validation error	Pass
TC_023	Validation	/auth/login	POST	Empty string values	Validation error	Pass
TC_024	User API	/users/999999	GET	Invalid user ID	User not found	Pass
TC_025	API Validation	/auth/login	GET	Wrong HTTP method	Method not allowed	Pass
TC_026	Authorization	/auth/me	GET	Invalid Bearer Token	Unauthorized	Pass
TC_027	Authorization	/auth/me	GET	Modified Bearer Token	Unauthorized	Pass
TC_028	API Validation	/auth/login	POST	Missing Content-Type header	Validation error	Pass
TC_029	API Validation	/auth/login	POST	Invalid JSON request	Bad Request	Pass
